

## SMART Board 600i interactive whiteboard system

With the simple push of a button, the SMART Board 600i interactive whiteboard system offers you a powerful multimedia environment at your fingertips. This integrated system has an extended control panel that enables you to easily access and control all of your meeting room technology, including the SMART UF55 projector. It reduces shadows and displays a brilliant projected image, making your presentations crisp and bright. And if you need more room to work, the 600i is also available in wide format.

### Maximum multimedia

Connect up to four audiovisual devices to the 600i, such as laptops, DVD players or digital cameras. The SMART Board 600i interactive whiteboard system is fully integrated with the short-throw SMART UF55 projector, which reduces shadows on the interactive whiteboard and keeps light from shining in the presenter's eyes. High levels of brightness and contrast, plus true color quality made possible by BrilliantColor technology, ensure that video, data and digital images appear clear and crisp.

### Room to work

Get 20% more working space on your interactive whiteboard by choosing the widescreen option. This model, the 685i3, is ideal if you're using widescreen laptops and monitors. It combines the SMART Board 685 interactive whiteboard with the SMART UF55w projector, which offers a 16:10 aspect ratio and native WXGA (1280 x 800) widescreen resolution.

### Easy to manage and maintain

The 600i is easy to install, maintain and secure, reducing your total cost of ownership. The system's durable surface, collapsible multiposition boom and network-enabled projector ensure your investment is reliable and protected. The SMART UF55 projector's filter-free design, enabled by the use of DLP technology, means you have no filters to clean, maintain and replace.

- 1** SMART Board interactive whiteboard – a touch-sensitive interactive whiteboard that connects to your computer and projector and shows the computer's desktop image
- 2** UF55 projector – an integrated XGA (1024 x 768) projector that offers a 4:3 native aspect ratio and support for 16:9, 16:10 and 4:5 ratios
- 3** Extended control panel – provides centralized control over meetingroom technology

## Key features

### Simple Installation

Install the 600i quickly and easily with the boom and swivel mount. The projector is mounted directly above the interactive whiteboard, so virtually any meeting room can accommodate the 600i without needing complicated wiring or ceiling mounting.

### Network enabled

The projector is network enabled, so it can be connected to your office IP network to enable commands to be sent or received through the Web server or SNMP client.

### Theft resistant

The projector is rendered inoperable if removed from the extended control panel or remote, while the Kensington lock slot and projector padlock loop act as additional visual and physical deterrents.

### Long lamp life

The system's lamp lasts for 3,000 hours in standard mode and 4,000 hours in economy mode.

### Filter free

Eliminate the need for regular maintenance and filter cleaning. The UF55 features a filter-free design, enabled by the use of DLP® technology. This technology ensures no filters need to be cleaned, maintained and replaced, reducing your total cost of ownership.

### Wide-format option

The system is available in wide format, providing 20 percent more working space.

### Multiposition boom

At installation, the UF55 projector and boom can be configured to accommodate multiple room sizes and SMART Board interactive whiteboard models, including the 560, 580, 660, 680 and 685.

### Warranty

The interactive whiteboard comes with a five-year warranty upon registration. The UF55 projector has a three-year warranty.

### Durable

Durability is built into the SMART Board 600i interactive whiteboard system. The hard-coated polyester surface is tear proof and easily cleaned with any alcohol-free household glass cleaner or disinfected with a diluted bleach solution.

### UF55 projector specifications

#### Total size

18 1/2" W x 15 1/2" H x 50 1/4" D  
(47.0 cm x 39.4 cm x 120.0 cm)
