

App Dynamic develops AirServer Connect 2, the universal screen mirroring solution. It builds on our many years as an industry pioneer in screen mirroring software as well as our first-generation hardware.

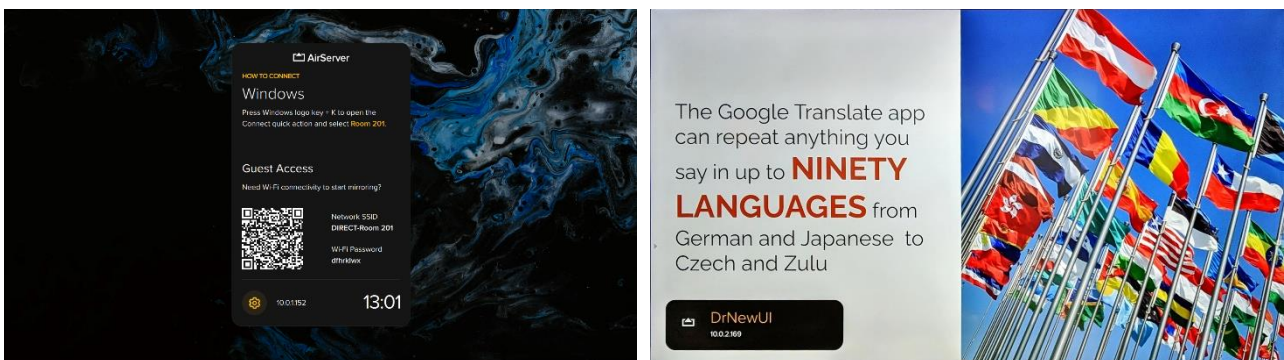

The device has all the features and performance of the current AirServer Connect 4K UHD with several improvements:

- ▲ Highly portable, a quarter of the size of the previous version
- ▲ New user interface with quick setup and on-screen instructions
- ▲ AirPlay Bluetooth discovery
- ▲ Local custom background images
- ▲ HTML5 backgrounds for digital signage
- ▲ Improved Wi-Fi Guest Hotspot performance
- ▲ Built-in Wi-Fi can connect to network infrastructure
- ▲ New Device Management webpage
- ▲ Cloud Management platform to monitor and manage multiple devices
